CATTLEMEN LIKELY TO BE "CARTERED" AGAIN...

MOVING? Please use form inside paper and give full information. Moving list is run on Friday for following week.

Word out of Washington appears to indicate that President Carter is poised to slap the cattleman down again with a veto of the new meat import bill recently passed by Congress. There ain't no argument between Mr. Carter and the cattleman concerning the equity and justice of putting beef imports on a basis where they will increase as beef supplies in this country dwindle and then be reduced when surplus supplies are on hand. The big problem is that Carter wants to maintain his privilege of being able to open the gates to new floods of imported meat when he wants to and not be bound to abide by the guidelines of supply and demand. Carter seems to think that the law as passed would "tie his hands," and based on past performance to tie the hands of the President is sorely needed. You all recall that a few months ago cattle and beef prices started coming (CONT. ON PAGE 31)

Carter Reported Set To Veto Meat Import Bill

Livestock sources in Washington reported late last week that prospects of President Carter vetoing the new meat import bill are stronger than likely. Carter reportedly favors the new counter-cyclical approach to regulating meat imports in such a way that time of surplus domestic supplies imports would be curtailed and in times of domestic scarcity the imports would be raised. Carter did, however, object to that part of the new law which removed his ability to increase imports by executive order.

All out efforts had been made to get the new bill to the White House quickly so that Carter would have to either approve or veto the bill before the Congressional elections November 7. Washington insiders report House Speaker Tip O'Neill, a close Carter ally, is apparently dragging his feet and will hold the bill off until the elections are over and Carter can kill it either by outright veto or pocket veto.

Herbicide 2,4,5-T Gets Vote of Confidence

College Station — The most widely used herbicide to control brush on millions of acres of Texas rangeland — 2,4,5-T — has received a vote of confidence Oct. 16 from Texas A&M University agricultural leaders.

The herbicide has come under review by the Environmental Protection Agency as a possible health hazard. In a position paper representing three Texas A&M University divisions — the College of Agriculture, the Texas Agricultural Experiment Station and the Texas Agricultural Extension Service — Dr. Perry Adkisson, vice president for agriculture and renewable resources, said:

"The economic and biological benefits of this chemical, when used according to instructions, cannot be disputed. Few agricultural chemicals have a longer record of safe use than 2,4,5-T on domestic livestock or wildlife — or to humans who have consumed crops or animal products from lands treated with 2,4,5-T."

"There is no evidence that 2,4,5-T itself is poisonous to humans or any other animals when used according to the label."

Obe Lionberger Heads "More Active" Texas Shorthorn Assn.

Weatherford, Texas — Obe Lionberger, new president of Texas Shorthorn Association, is prepared for a busy year heading up what might seem to be a frenzy of activities for the previously not-too-active organization.

The increase in activity by the association started under the leadership of L. M. Haupt of Bryan who saw membership rise from a low of 16 when he took over the reins to a current roster of 83 members.

"We believe we can have the membership to more than 100 by the first of next year," Lionberger said.

Sales are another way Lionberger hopes to generate interest. The first sale will be the Texas Shorthorn Association's Fall Sale on Nov. 4 at the Ellis County Fairgrounds in Waxahachie. Lionberger has spent lots of time and labor putting together that sale and its catalog which lists 56 lots from 22 consignors including some of the top bloodlines of the breed. Robert Dahl's Palo Aere Farms at Gruver will have three bred heifers sired by "Spiro" and two young cows by Kinman Mr. Thoman, one with heifer and one with bull calf at side. Lionberger will have a bull calf by Jibshot Gladiator in the sale.

Then Lionberger is planning what he hopes will become an annual "Elite" national sale, the first to be held at the Fort Worth Fat Stock Show at 6 p.m., Jan. 26, 1979.

"We already have lots of good cattle lined up for that show, and a screening

committee plans to permit only the very best Shorthorns in the sale," he said. Quality of the cattle will be assured also by the fact that the sale cattle also must be entered in the Shorthorn Show at the Fort Worth Stock Show. That show, however, will not be held until Monday following the sale.

Lionberger believes that interest in Shorthorn activities can be enhanced by dividing the state into about four regions, so that more meetings can be held without necessity of traveling so far. "Up to now most of the activity has been in northeast Texas, because that's where most of the breeders have been located up to now, but in recent years Shorthorns have made a big increase in the Texas Panhandle and in South

This Shorthorn steer was judged Reserve Grand Champion in the 1978 State Fair of Texas at Dallas last week. Jackie Gleason of Muleshoe, at the halter, was the proud exhibitor of the winner. Others from left are Wayne Gallagher, Richard Anderson, Sid Pokladnik, and Justine Pokladnik, of Rudolph's, the buyer of the steer.

A LOT OF BULL?

You bet.

Just ask Shorthorn producer Bob Fuller of Screamboot Rock, Iowa. He reports bulls that are born unassisted, that wean at 516 pounds, and that gain 4.20 pounds per day on a 140-day test, and that weigh 1,189 pounds at one year.

Shorthorns have always had the ability to grade choice, so when you put it together here is a breed that does it all.

Through the efforts of ASA's advancement programs and study and research by individual breeders Shorthorns' improvement strain is increasing all the time.

No fills... no fancies. Just a breed that means higher profits for you.

And that's no bull!

Executive Secretary

Dr. Earl B. Peterson was appointed executive secretary of American Simmental Association by the ASA's Board of Trustees on September 25, 1978. The announcement was made by Colville C. Jackson Jr., Gloucester, Miss., who is president of the national broad organization headquartered in Bozeman, Montana.

Peterson joined ASA in January, 1975 as the association's first business manager with responsibility for the finances, recording and service sections of the organization.

In July, 1976, he was appointed executive administrator of ASA. This position was created at that time to reflect added responsibilities, as well as to recognize Peterson's effectiveness in the overall operation of the association's national headquarters, according to Jackson.

He notes, too that interest in Shorthorn show steers is also increasing, and with success. A Shorthorn was reserve grand champion in the steer show at the State Fair of Texas last Friday.

Replacement Cattle Weak to Lower

St. Joseph, Oct. 20 (USDA) — National feeder cattle and calf receipts 315,700, 306,100 last week and 389,500 a year ago. Prices for feeder cattle and calves worked downward this week. Increased movement as the season progresses and price declines for slaughter steers and heifers prompted buyers to adopt a cautious attitude in further procurement of feeders.

In addition, the Cattle on Feed Report released at mid-week reflected a 16% increase over a year earlier in numbers on feed and was the highest October 1 on feed inventory since 1973.

Prices across the nation ranged weak to 3.00 lower for the most part. Isolated points saw prices skid as much as 4.00 lower with Arkansas witnessing some heifers 4.00-5.00 off. Tennessee sold steers steady to 10.00 lower and the Southeast had some calves 4.00-7.00 lower. In the mountain states and far west prices moved steady to 2.00 lower. On the other hand, St. Paul sold feeders steady to 1.50 higher while Wyoming had calves steady to 2.00 higher, instances 2.00-4.00 higher on heifers, calves.

Stuph & Thangs

(CONT. FROM PAGE 1)
out of a four-year depression when everyone in the beef production business was losing their shirts. As prices got back to where they were with some cattle to sell were startin' to look at a little black ink for a change. Lo & Behold, Mr. Carter opened up the gates to bigger and better beef imports which right now are at very high levels. What made Carter's action doubly damaging was the fact that he was advised to wait a little while by his advisors in USDA and elsewhere.

Reason was the beef market was on the verge of a downward adjustment after a sharp ramp of prices. It was tasterin' on the edge of a normal downward adjustment, but Jimmy couldn't wait. He just barged right ahead and the psychological impact sent beef and hilly and actively supporting Bill Clements.

Among those key Briscoe campaign workers who have publicly endorsed Clements are six of Gov. Briscoe's 12 regional coordinators during his primary campaign, Dean said.

cattle prices reelin' in a disastrous break which made the impending adjustment far greater than it would have been and also reintroduced red ink to the ledgers of the cattle business.

Texas Sen. Lloyd Benson Monday told the Texas Cattle Feeders Convention in Dallas a Carter veto of the new import bill would be a "tragic mistake." The counter-cyclical bill was needed to stabilize supplies and also stabilize prices for both the beef industry and the consumers. Benson pointed out "you don't have to be an economic genius to understand that (the old pro-cyclical law) present policy makes no sense."

However, the beef industry has been tryin' to get Congress to pass the bill to the White House before the Nov. 7 elections so Mr. Carter could make his move. This effort appears to be stalled, since House Speaker Tip O'Neill is making haste slowly in sending the bill to Carter and appears to be settlin' the stage for a Carter veto after the heat of the elections dies down. Apparently the cattle people are in shape to get "Carterized" again simply because the President is touchy about havin' some power to mess things up taken away from him. Too bad!

Ever thine. The Fiddler Larry Elbert of St. Joseph, Mo., won't get far with his argument that what is really wrong with the American Diet is we eat one half enough red meat. Dunk says he's with Elbert regardless of what the vegetarians say about peanuts bein' better. Dunk reports the trouble with judges is they act to laugh a bunch of these nuts outta court when they file silly law suits. For instance, there's a fellow in Milwaukee named Earl Kilgore who tried to rob one William Piotrowski. Piotrowski shot him outta Kilgore in the fracas. Now Kilgore is suin' fer damages. Claims Piotrowski used unnecessary force in resistin' the robbery! How Boyl Dunk says apparently Jimmy Carter now realizes there are limits to unisex. Last year on Lief Erikson Day he referred to Erikson as "that courageous Norseperson". Not this year. Like returning to manholes as personholes, the Norwegians apparently like their male heroes to be masculine regardless of what the nonperson advocates want. This year Lief is cited as a leader of "brave men", which'll probably knock some of the flop of Bela Abzug's hat brim. — Thassall, Brothers!

A TAXPAYER'S BILL OF RIGHTS IS PAST DUE

Bill Clements believes we still have a chance to preserve our future by establishing constitutional protection against excessive taxation and runaway government spending.

Bill Clements believes the people of Texas should have the power necessary to ratify or reject tax policies made by legislators.

To establish this power (of the people), Bill Clements will introduce an amendment to the Texas Constitution that would give the people of Texas this right.

Bill Clements' "Taxpayers' Bill of Rights" would:

- Give Texans the right of initiative and referendum, a phrase that means we, the people, have a right to vote on the taxes to be levied on us.
- Place a ban on corporate or personal income tax in Texas.
- Require a two-thirds record vote of both houses of the legislature to pass a tax bill.
- Allow local taxpayers to call an election to ratify or reject a tax increase created by a local governmental unit.

Bill Clements believes in Texas and the people of Texas.

Bill Clements thinks that elected officials must work for the people and represent them properly.

As governor of Texas, Bill Clements will work for and with the people of Texas.

people and provide the means to insure that principle endures.

BILL CLEMENTS, A GREAT GOVERNOR FOR TEXAS.
